You can look forward to an informal discussion on the concept of care navigation and advocacy with **Jennifer Moir** of Age Well Solutions. She will review the types of services offered, how it has helped others, and how to determine if it is the right service for you or those you care about.

The keynote presentation will be followed by an informal networking opportunity to learn more about other services and tools to help you age in place, and in control.

“The advocacy and guidance you offered helped crystallize a direction for Dad and gave him the support he needed. That unto itself was worth everything to him, and to me.”

B. Laughlin (son)
